Reports to: Production Manager

Trees of Corrales is a family owned wholesale nursery located in beautiful Corrales, New Mexico. We are seeking a production grower who will specialize in growing premium quality ornamental grasses, perennials, woody shrubs and container trees.

Job Description

- Ideal candidate must be able to manage and execute tasks dealing with the overall growing and maintenance of plants to ensure proper plant growth and health.
- Evaluate crops and implement IPM to manage pests and diseases. The position requires a detailed approach to ensure crops develop per existing practices including irrigation needs, scout for insects and disease treatments.
- Work with existing irrigation and fertigation systems. Bartlett environmental control systems.
- Follow growing schedules with production manager to include propagation by seed, and vegetative cuttings.
- Coordinate daily labor to work in efficient manner to complete required job tasks.

Qualifications

- Bachelor's degree or 2 years of experience in horticulture/nursery industry.
- Able to work indoor and outdoor year-round.
- Team player and self-motivated

Benefits Include

- 401k up to 4% match
- Holiday pay
- Paid PTO
- Competitive wage
