Britton Nursery is a family-run, wholesale perennial nursery growing Colorado hardy perennials for nurseries, garden centers and landscapers throughout the state. Employment is seasonal, fast paced and demanding yet rewarding with constant physical activity, never sitting at a desk, regularly exposed to hot, cold, or wet conditions. On days of extreme or inclement weather, indoor tasks may be assigned or the workday may be canceled. Employees at Britton Nursery enjoy a family atmosphere and a positive work environment. Britton Nursery seeks to find individuals who enjoy working on a team, value the culture and environment of their workplace, and appreciate hard work, and the opportunity to work outdoors all day.

All employees work Monday-Friday 7:00AM - 3:30PM with occasional work cancelations due to weather.

The tasks of team members at Britton Nursery can include:

- **Planting production line team** members pot up plants by hand the “old-fashioned way” to fill pots with soil, remove plants from liners, plant them into the soil, tag them, transport them to the appropriate greenhouse, and water them. This by-hand process produces the highest quality perennials and allows crew members to enjoy fine-tuning each cart of plants.
- **Order fulfillment team** members work to move through the greenhouses selecting plants to fulfill orders. Orders are pulled with great attention to detail, ensuring quality and consistency are maintained while working with awareness of urgency so that orders can reach the customers in a timely manner.

Skill Requirements:

- Cheerful attitude and willingness to do what is asked of the team
- Ability to work and communicate in a team setting
- Attention to detail and ability to visually identify plant quality
- Critical thinking and decision making
- Ability to remember plant names and greenhouse locations
- High school graduates preferred

Physical Requirements:

The physical demands of working at a plant nursery are relatively high. Team members must have the physical stamina to be on their feet performing tasks in the sun for 8 hours a day without losing efficiency or quality. They must regularly lift and/or move up to 25 pounds, and occasionally may be asked to lift up to 50 pounds. Team members must be able to bend, twist, and lift plants off the ground or move plants from a cart onto the ground repeatedly.
