

# 2018 Final Report

## 2018 Session Summary

The Colorado General Assembly has concluded their work for 2018 closing out their 120 day session on May 9<sup>th</sup>. Hicks & Associates pleased to present this report on the activities of the legislature in 2018. The year proved to be a very diverse year but continued the time honored tradition at the legislature of waiting to the last minute to resolve major policy issues.

### Session Facts:

There were a total of 721 bills introduced during the session, 121 bills over the legislator limit of five bill titles per legislator. These additional bills usually come later in the session and often deal with the critical issues facing the state. The Senate introduced 280 bills while the House introduced 441. As of May 9<sup>th</sup>, 221 bills have been signed with many more on the way as the Governor has the chance to catch up with Legislature’s final decisions. 277 bills were defeated in the session and so far there has been no vetoes by the Governor. The 721 total bills represent a fair increase in the number of bills as a normal session has about 650 bills total.

- 721 bills introduced
- 277 bills killed
- 444 bills passed or awaiting final signature

### Big Ticket Items:

Budget was and is the biggest ticket item every session. Based on the money available, policy decisions are made as to what to fund and what not to support. The projected additional revenues for the Colorado’s General Fund coming into the session were over \$800 million above last year’s spending allocations. This surplus set off a flurry of both demands and expectations for this additional money. Transportation funding came in as a heavy favorite for additional revenues as did educational funding. Opioid crisis called not only for action but critical funding to address the problem. Statewide broad band deployment was another major topic that many rural areas of Colorado need to grow economically. Of course, there would a fair number of business bills that sought to license, regulate, non-regulate, tax or no tax and create new employee programs such as FAMILI, Work Comp. and pay issues. Also, on the table was a critical debate on sexual harassment within the capital itself.

### Budget Choices:

The general fund budget was projected to exceed by \$800 million the levels of expenditures from fiscal year 17/18. By March, that projected of surplus was upgraded to over \$1.2 billion, due to continued robust economy and the impacts of the new

federal tax laws recently enacted. The state's budget writers use the March revenue projections to create a balanced budget for the next fiscal year and craft a funding bill, known as the Long Bill, for approval. Of course with over a billion dollar surplus, there were many ideas on how to spend or not spend the money.

### 2018/19 Budget: HB-1322 Highlights

- State budget for 18/19 is \$30.405 billion. 17/18 budget was \$28.723 billion - and increase in spending of 5.9% overall.
- General Fund allocation for 18/19 is \$11.413 billion compared to 17/18 allocation of \$10.612 billion- increase of 7.5% spending.
- Education received an increase of \$421 million or an increase of 7.7%
- State general fund reserve received an additional \$120 million.
- Transportation funding received \$495 million to be split by \$346 million to Highways Users Tax Fund, \$74 million to HUTF fund for distribution and \$74 million to multimodal expenses.
- Higher Education received \$264.8 million in additional funding or a 6.2% increase.
- Statewide broad band deployment received \$8 million in funding.

### Hicks & Associates Legislative Client Issues:

Hicks & Associates (HA), was fully engaged in a number of policy issues this session from transportation, human trafficking, Nursery Act, Snow Removal Indemnification, Work Comp. issues, home energy policy changes, skill trade development, tax issues and water. Here are some the aspects of this session's work accomplished.

- HA reviewed 87 bills for client content and impact during the session.
- HA clients took positions on 25 bills with 17 bills supported, 6 opposed bills and 2 bills to be amended.
- HA offered 12 different amendments to legislative bills to support client policy decisions.
- There were 7 client bills offered in 2018 session with all 7 bills being passed that is 100% passage rate.
- HA reviewed 12% of all bills introduced for in-depth client impact but all 721 bills were scanned for client policy content.

### Business Issues:

2018 session was the prelude for the 2018 elections. There were a number of party signature bills offered in both the Senate and the House and the majority of these bills died in the other chamber. What these bills offer is window to what each party may offer in future legislative sessions depending on which party is in the majority, elections do matter. Hicks & Associates focuses on business related policy issues and to that end, we offer a short list of partisan bills offered by both parties for your review. Given election results, we may see these policy issues return in 2019 session.

- HB-1001- Extended FAMLI Medical Leave Insurance Program- costs and further employee benefits that must be provided.
- HB-1022- Sales Tax RFI project. Simplify sales tax terms and operation. Passed but future bills will be needed.
- HB-1036- Reduce Business Personal Property taxes.
- HB-1069 & 1093- Reclaimed water use. Water use and applications will continue to show up for review.
- HB-1107- Residence power storage and electrical vehicle wiring. Utilization of home energy and electrical vehicle use will continue to be debated.
- HB-1113- Regulatory Reform. Streamlining regulatory process is a must in the future.
- HB-1200- Cyber Crimes and data breaches- future issues for business.
- HB-1230- Work status for immigrants- both legal and workforce issue.
- HB1261 & 1262- Revise Colorado Arbitration Act
- HB-1278- Apprentice Utilization- work force regulation.
- HB-1341- Apprentice and Vocational Technical training in Colorado to fill skill trade jobs.
- HB-1368- Local control minimum wage- wage issues will continue to make the roster in future sessions.
- SB-047- Tax credits for innovative vehicles- electric and alternative fueled vehicle credits will be reviewed again.
- SB-128- Legislative approval of agency fees will be discussed again- major cost factor in business- fees and licenses.

- SB-171- Market place workers Work Comp requirements- new jobs and employer models will be on the block again.
- SB-193- Limit State Agency Occupational Regulations- reevaluates and adjust current occupationally licensed programs

### **Session Recap:**

Due to the split nature of the general assembly, radical ideas or partisan bills did not make through the process and the rule of the day was collaboration. A large number of bills were passed this year, as is the case every year, with bi-partisan sponsorship. Problem solving, common sense approaches and Colorado overall needs drive good legislation.

There were major compromises again this year.

- Transportation funding in SB-01 was accomplished very late in the session with a commitment of general fund money over the next 20 or so years if a voter approved ballot measure passes in 2019.
- PERA reform- SB-200 was passed to address the retirement fund for state/ local government employees. Again, funding the solution was a compromise and we will see if this bill does the trick of solvency for the fund.
- Education received an additional 7.7% increase in funding to include a pay down on the so call negative factor.
- State wide broadband was funded and passed so that all Colorado can enjoy broad band service.

### **GreenCO Report:**

GreenCO was very productive and engaged this session, having bi-weekly meetings with the GreenCO legislative committee, where we presented bill status's and legislative updates, as well as having our members come

and testify on bills. GreenCO reviewed and tracked over 30 bills and took positions on 9 bills with all opposing bills being postponed or killed and 4 bills we supported being either signed or sent to the Governor.

**HB-1246** was a top priority bill this session, which we were heavily involved in throughout the process. We stayed in constant communication with the sponsors and stakeholders throughout the process, as we were a key resource for the bill. GreenCO members came and testified on the bill in all committees. The bill had bi-partisan support in both chambers and was signed by the Governor.

**SB-062** was another priority bill for GreenCO. We worked closely with our ALCC members, in getting the bill drafted as well as holding multiple stakeholder meetings. There were many stakeholders that were in opposition, but we were able to mitigate their issues by working together through the amendment process without losing the intent of the bill. It received bi-partisan support in both chambers and is waiting to get signed by the Governor.

GreenCO Board and Legislative Committee are commended for their commitment to the GreenCO policy goals and their continued support of proactive policy development. We encourage the GreenCO board as well as the Legislative Committee in staying engaged with the policy process. If an issue arises that GreenCO would like to see addressed legislatively, we can then plan how to bring the issue to legislators, other stakeholders and business groups for development and action.

We will be conducting candidate interviews in August in order to decided who we will support in the upcoming election cycle.

Below you will find the full list of bills we tracked.

## GreenCO's Priority Bill Outcomes

### Engagement, Lobbying, Testimony, & Monitoring

GreenCO was heavily involved in multiple pieces of legislation this legislative session. The following bills include priority bills, meaning we directed the lobbying team to actively engage with other stakeholders, lobby all members of the General Assembly, provide testimony during committee, create fact sheets to ensure GreenCO's position and engage in any and all amendments to bills. Also included are the bills we were asked to engage in by other key stakeholders and bills that we were monitoring

Bill Number	Short Title	GreenCO Position	Outcome	GreenCO Actions
