We are an expanding wholesale greenhouse looking to add another Assistant Grower position. We grow bedding plants in the spring and poinsettias in the winter. Among others, duties would include scouting for insects, watering an assigned section, helping transplant, and potentially applying growth regulators & fungicides. We have about 7 acres of growing space in Arvada and are in the process of adding additional greenhouses. Hours would be from 8AM to 4:30PM, Monday through Friday with some weekend hours required seasonally. We have two paid 15 minute breaks and one 30 minute lunch. Feel free to call with any questions, Ryan/Harry 303-424-8536.
