With long domestic lead times and delays at our ports, it's going to be a nail biting season waiting to get plastics in. If anyone is interested, we are sitting on some excess plastic inventory. They are all brand new, have been properly stored, and are ready to ship.

See photos on next page. These were manufactured by Ainong and are also designed to fit T.O. Plastic's 4.5" square trays.

We have the below items listed at our cost:

- 21 pallets of Black 4.5" SVT standard configured 2X5 for press fit with UPC, 11,160/pots per pallet. Price is \$.106/pot or \$1,182.96/pallet OBO.
- 9 pallets of White 4.5" SVT standard configured 2X5 for press fit with UPC, 11,160/pots per pallet. Price is \$.143/pot or \$1,595.88/pallet OBO.
- 1 pallet of Terra Cotta 4.5" SVT standard configured 2X5 for press fit with UPC, 11,160/pots per pallet. Price is \$.143/pot or \$1,595.88/pallet OBO.

Also, we have the trays of these to match. They are 10 count 2x5 configuration and would be \$.70/ea.

We are able to deliver to the Front Range for a small fee.

If you know someone out of state interested, we're willing to work with them to coordinate a freight company.
